SHOULD MY CHILD STUDY TRAVEL & TOURISM?

Study of the qualification as part of Key Stage 4 learning will help learners to make more informed choices for further learning either generally or in this sector. The choices that learners can make post-16 will depend on their overall level of attainment and their performance in the qualification.

Learners who generally achieve at Level 2 across their Key Stage 4 learning might consider progression to:

- A Levels as preparation for entry to higher education in a range of subjects
- study of a vocational qualification at Level 3, such as a BTEC National in Travel and Tourism, which prepares learners to enter employment or apprenticeships, or to move on to higher education by studying a degree in the tourism sector.

What will my child gain from travel & tourism?

The Award gives learners the opportunity to develop sector-specific knowledge and skills in a practical learning environment. Learners will develop:

- knowledge that underpins the effective use of skills, processes and attitudes in the sector such as the appeal of different tourist destinations to different types of customer, and the factors that influence travel and tourism
- skills such as researching different travel and tourism organisations, the features of tourist destinations, and the products and services available to meet the needs of different customers
