July 2020

Dear Parent/Carer

Over the past few weeks we have undergone lots of exciting network upgrades at Goldington Academy to ensure we are providing the best services possible. This includes upgrades of our network to support remote teaching delivery, of our email system to Office 365 thus ensuring 24/7 stability, as well as a migration of our website to a more comprehensive hosting provider. One of the changes necessary was to bring our website in line with the domain address we use for our emails. From this point forward, our school website will now be accessible at: <https://www.goldington.beds.sch.uk>

Our website will continue to function as normal with all our student services still remaining fully operational and accessible via the "Useful Links" page.

Yours Sincerely

M Latchman
