

We encourage staff to be innovative within their subject areas and seize topical opportunities as they arise, therefore aspects of the taught curriculum may differ from the one which is published.

YEAR SEVEN CURRICULUM SUMMARY - SUMMER TERM 2021

<p>ENGLISH</p>	<p>In the first half of the term, students will develop their understanding and enjoyment of poetry. They will read a range of poems from different time periods, becoming confident in analysing language, as well as recreating a writer's methods in their own writing. We aim to encourage students to feel enthusiastic about reading and writing poetry, as well as approaching poetry in a critical way. In the second half of the term, students will focus on travel writing, developing the skills to write interesting and engaging forms of persuasive writing. Throughout the term, students will also have an opportunity to improve their confidence delivering presentations by sharing their writing in front of their peers.</p>
<p>MATHEMATICS</p>	<p>In the summer term, Year Seven students will complete the following units of work:</p> <ul style="list-style-type: none"> • Constructing, measuring and using geometric notation • Developing geometric reasoning • Developing number sense • Sets and probability • Prime numbers and proof <p>Greater detail about the content of the unit, keywords and individual objectives can be found on the maths curriculum page of the school website in the knowledge organisers section.</p>
<p>SCIENCE</p>	<p>Year Seven students will continue with their 'Olympics' topic where they will learn about the muscles and bones within the human body. They will also discover all about atoms, elements and compounds. Pupils will then move onto the 'Zoo' topic, where they will learn about ecosystems and energy. To finish off the year, pupils will complete the 'Whizz, Pop, Bang' topic which covers acids and alkalis, and sound. The term will conclude with end of year assessments in science.</p>
<p>ART</p>	<p>The students will begin the 'Africa' project this term. Students will be introduced to the work of amazing African artists and craftspeople, looking at Kente Cloth design and Mud Cloth design as well as traditional African masks. With all this as inspiration, students will produce their first large-scale piece of work, combining styles as an opportunity to develop composition and experimentation. In the last few lessons of the year, students will have interactive activities and discussion to introduce art history, focusing on key movements. This aims to encourage students to discuss artwork and become passionate about the styles and movements they are most interested in.</p>
<p>COMPUTING</p>	<p>This term we will be looking at hardware, networking, security and the internet. We will cover all of the major components which make up a LAN, WAN and PAN as well as networking topologies and layers. Students will then get an introduction to Python programming. This is the first true object orientated programming language that students will have tackled and will start them on their journey towards learning other programming languages in later years. The focus will be on core programming constructs and the ability to create and manipulate variables.</p>

YEAR SEVEN CURRICULUM SUMMARY - SUMMER TERM 2021

DRAMA	<p>In the first half of this term, the students will develop analytical and practical drama skills whilst exploring Shakespeare's work. Students will be introduced to: Macbeth; A Midsummer Night's Dream; Othello; The Tempest; Romeo and Juliet and Hamlet. Each lesson will focus on a different technique and/or skill related to text exploration and realising drama.</p> <p>In the second half of the term, students will go on an adventure through space, time and fairy tale worlds, whilst also embarking on a journey of learning and self-discovery. The lessons will be workshop orientated and students will be led in activities designed specifically to test their creativity, imagination and the drama skills they already possess.</p>
DESIGN TECHNOLOGY	<p>Year Seven students will begin to explore a range of technical drawing styles and graphics, investigating the strength of typography and fonts, and the impact of graphics and styles of drawings to help communicate different emotions and purpose. The design development will involve greater annotations and reflection with significant reference to the consumer they are designing for. In addition, students will explore new designers and their works. Students will develop creative ideas to a given brief and produce a cardboard prototype in the style of a famous designer. Please note there may be some alterations as the term goes on.</p>
FRENCH	<p>The students will begin the term learning how to tell the time and how to describe their daily routines. They will learn a range of vocabulary to do with expressing their opinions about school life and different subjects. The topic culminates in a piece of writing about their daily routine and school day, which gives them the opportunity to use a range of conjunctions, time connectives and opinion phrases in their work. Students will then move on to learning how to talk about their hobbies in French, using the important grammar concept of 'infinitive verbs'.</p>
GEOGRAPHY	<p>Year Seven will begin the term by learning about great rivers with a focus on the UK and India. They will explore a range of river landforms and discover how and why some rivers bend. They will also investigate the impact of extreme weather events and use their numeracy skills to draw and interpret flood hydrographs, before completing the topic with a decision-making exercise based on Bedford. They will continue to build on their use of geographical skills and key concepts. Their final topic will be exploring the impact of tourism, through the good, the bad and the ugly!</p>
HISTORY	<p>Year Seven students will explore a number of key questions in the summer term. In a study based on the Middle Ages, students will question how much power and influence the Church had in addition to investigating the challenges to the monarchy and why the peasants revolted. The focus will then change to the Tudor era, and students will consider what caused religious conflict in the sixteenth century. The final 'Big Question' of the academic year will be linked to the Stuart age - Why did the English kill their king? Through the study of these questions, students will continue to refine their source-related skills, such as those of deduction and evaluation.</p>
LIFE SKILLS	<p>This term, students will explore the statutory relationships topic covering: developing self-worth; recognising healthy and unhealthy relationships; recognising and challenging media stereotypes; and age-appropriate aspects of consent. The intention is to enable students to develop safe, positive relationships in all aspects of life. In the second part of the term, financial decision making is the focus, including how to make safe financial choices, saving and budgeting, and ethical consumerism. Students will also make their first foray into employability, embedding ambition and enterprise, during the careers exploration topic.</p>

YEAR SEVEN CURRICULUM SUMMARY - SUMMER TERM 2021

MUSIC	<p>The topic for the term is Film Music. This genre will be explored through the integrated activities of performing, composing and listening. The students will learn about the important role music plays in films and how composers use musical devices to create a particular mood or atmosphere. They will develop their keyboard skills by learning to play chord sequences and improvising 4-bar phrases. Finally, they will compose a piece of music for a science fiction film, using the online music resource, Soundtrap.</p>
PHYSICAL EDUCATION	<p>PE lessons will focus on athletics, with the students having the opportunity to develop skills in both field and track events. Throwing skills will primarily be more specific to Javelin and Shot Put. In games-based lessons, students will have the opportunity to develop the skills and knowledge of tactics in striking and fielding games such as cricket and rounders. Within both sports, students will have the opportunity to experience playing in various positions such as bowling, fielding and battering.</p>
RELIGION, PHILOSOPHY AND ETHICS	<p>This term, Year Seven will continue to investigate beliefs about the nature of God, the creation of the universe, and the role of humans in the world. The students will then move on to a unit of work which explores the role of art, music, and architecture in religious and spiritual expression.</p> <p>In addition, students will have an opportunity to create their own creative piece of spiritual artwork, with a chance of being entered into NATRE's national Spirited Arts competition. The themes for the competition this year are as follows:</p> <ul style="list-style-type: none">• God's good earth• Where is God?• Healing• Inspiring!• "We have far more in common with each other than that which divides us" – Jo Cox MP <p>More information about these themes can be found at: https://www.natre.org.uk/about-natre/projects/spirited-arts/spirited-arts-2021/</p>
