# **COMPUTER SCIENCE GCSE SPECIFICATION AT A GLANCE**

**EXAM BOARD:** OCR

Candidates will pursue a course leading to the award of a GCSE 9-1 qualification at the end of Year 11. Computer Science GCSE requires students to complete two written exams at the end of the course.

## **ASSESSMENT DETAILS:**

### **Component 1: Written Paper**

Computer systems

1 hour 30 minutes

50% Weighting

### **Component 2: Written Paper**

Computational thinking, algorithms and programming

1 hour 30 minutes

50% weighting

## **SUPPORTING TRIPS AND ACTIVITIES:**

### **Bletchley Park**

Enigma Code Breakers

Estimated cost £15

### **Theatre/ Cinema Visit**

The Imitation Game

## **Should my child study Computer Science?**

Computer Science is the study of the foundational principles and practices of computation and computational thinking and their application in the design and development of computer systems.

Learning computational thinking involves learning to program, that is to write computer code, because this is the means by which computational thinking is expressed.

## **What will my child gain from Computer Science?**

Learners apply their understanding to develop computer-based solutions to problems using algorithms and a high-level programming language. They also develop a range of technical skills, as well as the ability to test effectively and to evaluate computing solutions.

## **Where will Computer Science take my child?**

Computer Science GCSE is an ideal foundation for further study in computer science.

Understanding the principles of Computer Science provides learners with the underpinning knowledge required for many other subjects in science and engineering, and the skills learnt can also be used in everyday life.

In order to study Computer Science, it is recommended that your child is a competent mathematician with a target grade of 4 or higher.
