

SPECIAL EDUCATIONAL NEEDS & DISABILITY (SEND) PROVISION

SEND provision at Goldington Academy aims to help students achieve their full potential across the curriculum. Academic provision is via high quality teaching. Every student is different and this is reflected in the support that is provided. This can include:

- Individualised academic study support depending on need
- Classroom support, guidance and differentiated resources and learning materials including individual ICT support
- Small group intervention
- One to one intervention
- Academic and pastoral mentoring
- Social emotional and mental health interventions
- Reasonable adjustments to teaching and learning
- Access arrangements as determined by a robust assessment system

The SENDCo is available to meet and discuss plans for support and student progress. He can be contacted online by email or in after school drop-in sessions.

We are committed to helping students gain the best academic and social progress possible and believe this is most effective when parents, students and teachers work together.

Mr S Roopnarain
