Dear Parent/Carer

### **Year 10 Exam Results**

Your child's Year 10 exam results are now available for you to view on Go 4 Schools. We have included their end of Key Stage 4 target grade for you to compare against.

**Target grades** are aspirational and are based on your child's prior attainment. They are an indication of what your child could achieve if they continue to work hard and approach their revision in an organised and productive manner.

It is our hope that this document will enable you to have a constructive conversation with your child about which subjects they are feeling confident in and to help you to pinpoint those subjects where they will need to put in a little more work, or require additional support, either from home or from school.

Students will have received more detailed feedback and guidance about their exam results from their subject teachers during lessons, particularly areas for further development.

Where a student has not completed a mock exam in a subject, there will be a blank box.

Overall, we are pleased with the results achieved by the majority of Year 10 students. If your child is close to or has achieved their Key Stage 4 target grade in their exams, we would encourage them to strive towards achieving the next grade up.

If you would like to discuss your child's exam result with their subject teacher, please email them. All email addresses can be found on the school's website: [Staff emails](#).

Yours sincerely

**Francis Galbraith  
Principal**
