Highly talented students

Dear Parent/Carer

Goldington Academy is committed to nurturing the diverse talents and abilities of our students. We believe that every child has unique strengths that deserve recognition and support. As part of our ongoing efforts to provide a well-rounded education, we invite you to share any exceptional talents or skills that your child possesses – particularly those of which the school may not already be aware – to help us cater for their individual needs.

Please use this link to inform us if your child has talents which are significantly above what would be expected for their age. This could include one or more of the following:

- Academic subjects in general
- Computing
- Creative/Visual Arts
- Critical thinking and analysis
- Foreign languages
- Leadership & communication
- Maths
- Music
- Problem solving & innovation
- Sport
- Technology & engineering
- Other areas

Your feedback helps us create the best possible environment for our students. If you would like to discuss anything in further detail, please contact me directly.

Yours sincerely

J Marston
