

With the whole country once more entering National Lockdown from Sunday 3rd January 2021 my overriding message to all Goldington Academy pupils and parents is that we are here to help.

We are committed to giving your child the very best "virtual" learning experience we can. Unless you receive other instructions all lessons will be delivered according to your child's timetable by Microsoft Teams, accessed by Office365, via our "Useful Links" on our Home Page. Our focus at this time will be to ensure these lessons are of the highest quality.

In addition, using the "For Pupils and Parents" section of the website you will find a range of resources that we hope are of use to your child. Similarly, can I draw your attention to our Mental Wellbeing page full of useful hints and tips on staying mentally strong at this difficult time. Good routines, sleep, good diet and regular exercise being essential to both you and your child's physical and mental health.

Feedback can go directly to teachers but both Mrs Ross and myself welcome feedback coming directly into ourselves (galbraithf@goldington.beds.sch.uk, rossj@goldington.beds.sch.uk). We can then look to deal with issues immediately.

Take care, stay safe and with a united whole country effort I am sure we can defeat this pandemic.

Best Wishes

Mr F X Galbraith BSc (Hons), NPQH, MBA
Principal
